Product ID: CY275

The **Band Saw Machine** is vital for processing wood, metal, as well as various materials. It contains a round, serrated blade which can be used for straight cuts, irregular shaped cuts, and curved shape cuts depending on the equipment's lateral flexibility and band width. Band sawing is widely considered an art and various books have been published showcasing the potential of wooden and metal ones.

The Band Saw Machine provided by Chyun Yow Machinery Industry Co., Ltd includes choices of high quality and horizontal ones for our clients that offer features that represent the focus of the company: Performance, versatility, longevity and, above all accuracy. Because the appropriate cutting speed varies for different types of band sawing jobs, George Machines adopts a fully computerized system on our Band Saw Machine and Horizontal equipments that can be customized to meet various requirements of our valued clients.
